**A gripping and heart-wrenching novel that follows the journey of two young people as they navigate the challenges of living with chronic illnesses.**

Seventeen-year-old Emily has always been a fighter. When she was diagnosed with juvenile rheumatoid arthritis at the age of five, she refused to let it define her. She continued to dance, play piano, and excel in school. But as she enters her senior year of high school, her symptoms worsen and she begins to doubt her own strength.

Eighteen-year-old Ethan is a talented musician who dreams of one day playing Carnegie Hall. But when he is diagnosed with Crohn's disease, his

dreams seem to crumble before his eyes. He struggles with the pain, the fatigue, and the social stigma that comes with his illness.

Emily and Ethan meet at a support group for young people with chronic illnesses. At first, they are hesitant to open up to each other. But as they share their experiences, they begin to realize that they are not alone. They learn from each other, they support each other, and they find hope in each other.

*Curse Of The Immune: The Surviving Young* is a powerful and inspiring story about the challenges and triumphs of living with a chronic illness. It is a story of hope, resilience, and the power of the human spirit.

## **Reviews**
