The Hidden Hand Behind the Scenes

Drawing on original sources and insider accounts, "Friends In High Places" exposes the extent to which the elite exert their influence on the world stage. Sherd uncovers their role in shaping public policy, controlling information, and manipulating events to their advantage.

Whether it's influencing elections, suppressing dissent, or securing lucrative contracts, the elite wield their power with impunity. Sherd exposes the secretive gatherings, private meetings, and back-room deals where these decisions are made, often in the shadows and without public scrutiny.

The Power of Perception

Sherd also examines the psychological strategies used by the elite to maintain their dominance and control the narrative. Through media manipulation, social conditioning, and the creation of a perceived "other," they shape public perceptions and influence behavior.
